### Description

This format is designed for players who are relatively new to the game and are looking to experience organised club competition. This roster will aim to convert players to the CNW Female Competition over time, whilst also providing an alternative shorter fixture aimed at social players. Whilst playing for points, all matches are expected to be played in a social and friendly spirit.

### Number of Players in a Team

The optimum team size is **9** players; however, it is understood that teams may contain additional players and these players can be rotated throughout each game.

The minimum number of players that is required for a match to commence is **5**, however, excess players from opposing teams can, by agreement of both clubs, play for the opposition team to ensure a match is played.

### Match Balls

Cricket Tasmania will provide each club with one (1) modified ball for each match. The ball being used is a Red Eye-In Duraball, which is rubber coated with PVC. It replicates the bounce of a leather ball but is slightly softer.
